

## Scenic, Wild Delaware River Geotourism Program

The Scenic, Wild Delaware River Geotourism Program will create a National Geographic Society co-branded interactive website of the upper and middle Delaware River region that identifies natural, cultural, and historic attractions that make the area unique. ***Geotourism is "Tourism that sustains or enhances the geographic character of a place, its environment, culture, aesthetics, heritage, and the well-being of its residents."***

### An Opportunity for You!

Residents, visitors, community organizations, tourism stakeholders and local businesses are asked to nominate sites for potential inclusion in a co-branded National Geographic Society website of the Scenic, Wild Delaware River. The program covers sites, attractions and businesses within a nine-county area: Northampton, Monroe, Pike & Wayne counties in Pennsylvania, Warren & Sussex Counties in New Jersey and Delaware, Orange and Sullivan counties in New York. Join us on the following dates to hear more about this project and how you can become part of it:
